

# CRIAGE IN CALIFORNIA

# The Role of the Criminal Justice Statistics Center is to:

- Collect, analyze, and report statistical data that provide valid measures of crime and the criminal justice process.
- Examine these data on an ongoing basis to better describe crime and the criminal justice system.
- Promote the responsible presentation and use of crime statistics.

**CALIFORNIA DEPARTMENT OF JUSTICE** 

**Rob Bonta, Attorney General** 

# Executive Summary Crime in California 2021

Crime in California 2021 presents an overview of the criminal justice system in California. Current year statistics, provided by California law enforcement agencies, are presented for reported crimes, arrests, dispositions of adult felony arrests, adult probation, criminal justice personnel, civilians' complaints against peace officers, domestic violence-related calls for assistance, anti-reproductive-rights crimes, law enforcement officers killed or assaulted and violent crimes against senior citizens.

#### Facts for 2021:

#### **Crime Rates per 100,000 Population**

- The violent crime rate increased 6.7 percent in 2021 (from 437.0 in 2020 to 466.2 in 2021) (Table 2).
- The property crime rate increased 3.0 percent in 2021 (from 2,114.4 in 2020 to 2,178.4 in 2021) (Table 2).
- The homicide rate increased 9.1 percent in 2021 (from 5.5 in 2020 to 6.0 in 2021) (Table 2).
- The burglary rate decreased 5.3 percent in 2021 (from 365.4 in 2020 to 346.2 in 2021) (Table 2).
- The rape rate increased 8.6 percent in 2021 (from 33.8 in 2020 to 36.7 in 2021) (Table
- The motor vehicle theft rate increased 8.2 percent in 2021 (from 422.4 in 2020 to 457.1 in 2021) (Table 2).
- The arson rate decreased 4.4 percent (from 29.6 in 2020 to 28.3 in 2021) (Table 2).

#### Arrest Rates per 100,000 Population at Risk\*

• The 2021 total arrest rate of 2,606.3 is 7.3 percent lower than the 2020 total arrest rate of 2,812.3 (Table 17).

- From 2020 to 2021, the adult and juvenile total arrest rates decreased 6.8 and 24.9 percent, respectively (from 3,163.7 and 614.5 in 2020 to 2,949.6 and 461.2 in 2021) (Table 17).
- The total felony arrest rate decreased 2.7 percent in 2021 (from 901.2 in 2020 to 877.2 in 2021), while the total misdemeanor arrest rate decreased 9.4 percent in 2021 (from 1,903.0 in 2020 to 1,725.0 in 2021) (Table 17).
- The total violent offense arrest rate decreased 9.1 percent in 2021 (from 339.0 in 2020 to 308.1 in 2021). The homicide arrest rate decreased 3.8 percent in 2021 (from 5.3 in 2020 to 5.1 in 2021), while the robbery and assault arrest rates decreased 17.1 and 8.1 percent, respectively, in 2021 (from 45.1 and 276.5 in 2020 to 37.4 and 254.2 in 2021) (Table 22).
- The total property offense arrest rate decreased 8.9 percent in 2021 (from 210.2 in 2020 to 191.5 in 2(021). The burglary arrest rate decreased 18.7 percent in 2021 (from 61.5 in 2020 to 50.0 in 2021), while the arson arrest rate increased 3.4 percent in 2021 (from 5.9 in 2020 to 6.1 in 2021) (Table 22).
- The motor vehicle theft arrest rate decreased 6.6 percent in 2021 (from 52.9 in 2020 to 49.4 in 2021) (Table 22).

<sup>\*</sup>Population at risk means those between the ages of 10-69. Please see Appendix 1 on Page 73 for more information.

- The total felony drug offense arrest rate decreased 7.9 percent in 2021 (from 84.9 in 2020 to 78.2 in 2021). Narcotic and marijuana arrest rates decreased 11.5 and 20.6 percent, respectively, in 2021 (from 28.6 and 3.4 in 2020 to 25.3 and 2.7 in 2021), while the dangerous drug arrest rate decreased 5.4 percent in 2021 (from 49.6 in 2020 to 46.9 in 2021) (Table 22).
- The assault and battery, petty theft, and misdemeanor drug arrest rates decreased 7.5, 26.5 and 18.0 percent, respectively, in 2021 (from 228.3, 60.7 and 532.5 in 2020 to 211.2, 44.6 and 436.6 in 2021), while the misdemeanor driving under the influence arrest rate increased 14.2 percent in 2021 (from 303.3 in 2020 to 346.3 in 2021) (Table 27).

### **Dispositions – Adult Felony Arrests**

- In 2021, 62.0 percent of adult felony arrests resulted in conviction (Table 37).
- A sentence of probation with a term of a year or less in the county jail continues to be the most frequent sentence given for adult felony arrest convictions (Table 38A).
- From 2020 to 2021, the percentage of convictions resulting in incarceration in a state institution decreased from 21.2 to 19.7 percent. (Table 40).
- The percentage of violent and property offense convictions resulting in incarceration in a state institution decreased in 2021 (from 25.1 and 18.0 in 2020 to 23.8 and 17.0 in 2021), while the percentage of drug offense convictions resulting in incarceration in a state institution increased in 2021 (from 13.5 in 2020 to 14.1 in 2021) (Table 40).

#### **Adult Probation**

- In 2021, the total number of adults on active probation was 151,414 its lowest since 1980 (Table 41).
- From 2020 to 2021, there was a 15.3 percent increase in the total rate of adults placed on probation and a 19.6 percent increase in the total rate of adults removed from probation (Table 42).
- From 2020 to 2021, there was an 18.6
  percent increase in the rate of adults
  placed on probation for a felony offense,
  and a 23.9 percent increase in the rate of
  adults removed from probation for a felony
  offense (Table 42).

#### **Criminal Justice Full-Time Personnel**

- From 2020 to 2021, the total number of fulltime criminal justice personnel decreased 2.7 percent (Table 44).
- From 2020 to 2021, the number of law enforcement, prosecution and probation personnel decreased 2.7, 1.6 and 4.1 percent, respectively. (Table 44).

### **Civilians' Complaints Against Peace Officers**

- The total number of reported civilians' complaints against peace officers increased from 16,547 in 2020 to 28,617 in 2021 (Table 46).
- The total number of reported civilians' complaints of crimes fell to 693, its lowest since 1983 (Table 46).

# Domestic Violence-Related Calls For Assistance

- From 2020 to 2021, the total number of domestic violence-related calls for assistance increased from 160,646 to 164,608 (Table 48).
- From 2020 to 2021, the total number of domestic violence-related calls for assistance involving a firearm increased from 1,974 to 2,501. (Table 48).

# Law Enforcement Officers Killed or Assaulted

- The total number of law enforcement officers assaulted in the line of duty decreased from 11,618 in 2020 to 10,798 in 2021 (Table 49).
- In 2021, nine officers lost their lives in the line of duty, five as a result of felonious conduct and four as a result of accidental conduct (Table 49).
- From 2020 to 2021, the number of law enforcement officers assaulted with a knife or cutting instrument increased 15.9 percent, while the number assaulted with other dangerous weapons decreased 23.7 percent (Table 50).

# **Violent Crimes Committed Against Senior Citizens**

 From 2020 to 2021, violent crimes committed against senior citizens increased from 13,500 to 15,308 (Table 52).

# **Understanding the Data**

### **Characteristics and Known Limitations**

In 2016, the Federal Bureau of Investigation's Director informed all state Statistical Analysis Centers that the FBI Uniform Crime Reporting (UCR) program would be transitioning to a National Incident-Based Reporting System (NIBRS) only data collection by January 1, 2021. The California DOJ embarked on a five year effort to develop and implement a new state repository, the California Incident-Based Reporting System (CIBRS), to house the new FBI statistical reporting format. The CIBRS repository is a combination of the federal NIBRS requirements with additional California specific data elements. The California DOJ began collecting data in CIBRS in 2021. However, not all California law enforcement agencies (LEAs) have transitioned.

The data represented in this 2021 publication are a combination of both the summary and incident-based reporting (IBR) formats. There is an established method for converting IBR data into summary data for comparison and trending purposes. In order to present the most comprehensive and complete picture of crime for 2021, the summary and IBR data were combined and are presented in the summary format for this year's publication.

There are a few details to consider with this combined approach:

- 1. Definitional differences exist between summary and IBR reporting. In 2013, the FBI changed the crime of "forcible rape" to "rape" for the summary data collection which was implemented in 2014. The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The IBR collection has built-in validations that prohibit the reporting of rape offenses where the victim and offenders' sex is the same. There are footnotes in each table impacted in this publication and both the summary and IBR values are presented.
- 2. California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The FBI only collects the values of male and female. There are footnotes in each table impacted in this publication and the counts for each new value are reflected where appropriate.

# CRIMES Uniform Crime Reporting (UCR) Program

- Crime data from the UCR Program are available from 1952 to 2021.
- The number of reported homicide, rape, and aggravated assault crimes represents known victims; while for robbery, burglary, larceny-theft, motor vehicle theft, and arson, the number represents known incidents.
- If multiple crimes occur during the same event, only the most serious (based upon a hierarchy) is counted. Arson is the exception.
- Law enforcement agencies began submitting arson crimes data in 1979;

- however, 1980 was the first year of complete reporting. Agencies must report as arson only fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in this offense, but fires of suspicious or unknown origins are not.
- In 2011, the lower limit of felony theft in California was raised from \$400 to \$950.
   It was not feasible to adjust the California DOJ's data collection process to collect the new lower limit of felony larceny-theft, and consequently, it is no longer possible to distinguish felony from misdemeanor larceny-theft. Therefore, it was decided to include total larceny-theft crime in the property crime category regardless of value.

 In 2013, the Federal Bureau of Investigation's UCR Program revised the definition of "forcible rape" (the carnal knowledge of a female forcibly and against her will) to "rape," which is now defined as "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim."

The California DOJ implemented this definition change in January 2014. During 2014, agencies were encouraged to report using the new definition, but were allowed to report under the historical definition while transitioning their reporting systems.

# ARRESTS Monthly Arrest and Citation Register (MACR)

- Arrest data from the MACR reporting system are available from 1957 to 2021.
- If a person is arrested for multiple offenses on the same day, MACR selects only the most serious offense based on the severity of possible punishment.
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- The subjectivity of the classification and labeling process must be considered in analyses of race/ethnic group data.
- The Bakersfield Police Department was unable to provide arrest data for February through December 1995. The Oakland Police Department was unable to provide any arrest data for 1995. Estimates for both agencies were added to the 1995 statewide totals for publication trend tables.
- Beginning in 2004, the population category of "other" for race/ethnic group includes the Department of Finance's race/ ethnic group of "multi-racial."

- In 2011, there were notable changes in California law that affected arrest data. First, the lower limit of felony theft was raised from \$400 to \$950, contributing to the decline in felony theft arrests and the increase in misdemeanor theft arrests. Second, some misdemeanor marijuana statutes were re-classified as infractions, leading to a significant decline in misdemeanor marijuana arrests.
- In 2014, the definition of rape changed.
   Refer to the preceding, "Crimes" section for more detailed explanation and Appendix 2 for a list of included offense codes.
- In November 2014, California voters passed Proposition 47 which reduced numerous "non-violent" offenses from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor arrest data to prior years.
- In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for a number of marijuana-related offenses. Caution should be used when comparing drug offense arrests to prior years.

#### **DISPOSITIONS OF ADULT FELONY ARRESTS**

- Adult felony arrest disposition data (i.e. data related to the final law enforcement or prosecutorial outcome of a felony adult arrest) are extracted annually from the California DOJ Criminal History System. The data statistically capture the number of adult level final dispositions that occur each year as a result of a felony arrest and are displayed by the year of disposition regardless of the year in which an arrest occurred.
- Disposition data do not reflect the actual number of final dispositions occurring each year. Fluctuations from year to year may not necessarily be the result of actual occurrences in the criminal justice system but may reflect the degree to which reports of dispositions were reported and processed.

- "Final disposition" refers to the last adultlevel legal action that is reported prior to the close of the annual file. Final disposition can occur at the law enforcement, prosecutorial, or court level. Intermediate dispositions (diversion programs, suspended proceedings, or subsequent actions) are not included in the data.
- Dispositions that occur at the law enforcement or prosecutorial level involving releases, rejections, or resolutions can be reported in one calendar year file, proceed to adjudication at the court level, and then be reported again in a subsequent year file. The law enforcement release or prosecutorial rejection reported in the prior year's file is not retroactively updated or removed.
- If a person is arrested for multiple offenses, the extract selects only the most serious offense based on the severity of possible punishment. If there are multiple dispositions, the extract selects the most serious disposition and the associated offense.
- Disposition data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems and criteria.
- The adult felony arrest disposition file includes some persons whose age at arrest was under 18. These minors received a final disposition in adult court under provisions of Welfare and Institutions Code sections 602, 707(a), 707(b), 707(c), and 707.1(a).
- In 2019, there was a decrease in the number of final dispositions and sentences for felony adult arrests reported to the California DOJ from 215,283 in 2018 to 110,002 in 2019.

#### **ADULT PROBATION**

 Probation data include adults placed on supervised probation only. Court probation, diversion, and summary probation data are not included.

- Adult probation data are limited to original grants of probation and do not include subsequent grants of probation to those already under supervised probation in the same county. Probationers are counted for each jurisdiction in which they are on probation.
- From 2001 to 2005, San Francisco did not report adult probation data. San Francisco resumed reporting in 2006.
- Counts for adults on active probation for felony offenses may also include adults on probation for misdemeanor offenses for the following counties and years: Contra Costa (2000–2021), Kern (2010–2021), Lake (2001–2012), Merced (2003–2016), Sacramento (2003–2015), Shasta (2016-2021), Siskiyou (2000–2012), Tulare (2000– 2009), and Yolo (2000–2009).
- Some counties may have counted individuals on Post Release Community Supervision.
- In 2014, the San Bernardino County Probation Department discovered inaccurate probation statistics due to a flaw in their case management records system. Correcting the flaw resulted in a probation caseload decrease of 10,000 from previous years.
- In 2016, the Sacramento County Probation Department discovered that revoked and reinstated counts were not accurately reported in the data submitted for the reporting periods 2013-2015. Correcting the reporting practice resulted in a reduced beginning felony caseload for 2016.
- In October 2018, the San Joaquin County Probation Department discovered that probation caseload data had historically been inaccurately reported. An assessment of their records resulted in a decrease of both felony and misdemeanor caseloads by approximately 6,000.

#### **CRIMINAL JUSTICE PERSONNEL**

- The UCR definition of law enforcement personnel specifies that law enforcement agencies report only personnel paid by funds designated for law enforcement.
- The 1996 data collection survey forms were revised in an attempt to collect counts on the number of criminal justice personnel employed by prosecutors, public defenders, and probation departments, regardless of the funding source. Prior to 1996, counts excluded state and federally funded positions.

## CIVILIANS' COMPLAINTS AGAINST PEACE OFFICERS

- Data on civilians' complaints against peace officers have been collected since 1981.
- Because of the nature of the requirements of Penal Code section 832.5, reporting definitions and procedures may vary among individual reporting agencies.
- Based on a survey conducted in 2004, it was estimated that approximately onethird of complaints against peace officers were made by inmates in prison and jails.
- In 2007, two law enforcement agencies adjusted their reporting policies, substantially affecting the number of reported non-criminal and felony complaints.
- In 2017, California Penal Code section 13012 was amended replacing the word citizens' with civilians'. This modification was applied to the 2018 data collection.

# DOMESTIC VIOLENCE-RELATED CALLS FOR ASSISTANCE

- Reporting of domestic violence-related calls for assistance began in July 1986.
   The first full year of reporting was 1987.
- The definition of "domestic violence" is subject to varying interpretations by

- law enforcement agencies. As a result, different types of domestic relationships are included in the database.
- The San Francisco Police Department did not report domestic violence data from April 1997 to December 1999.
- Included in the data are any cases that resulted in a report being written by the responding law enforcement agencies. Therefore, data include both cases where an arrest was made and those where circumstances did not warrant an arrest.
- In April 2002, law enforcement agencies were instructed to report personal weapons (hands, fists, or feet) only if the assault resulted in an injury (aggravated assault). This instruction resulted in a notable decrease in the number of personal weapons reported.
- Reporting anomalies have required minor adjustments to the 2014 and 2016 data.
   Data may not match those previously published.
- In 2017, California Penal Code section 13730 was amended. Beginning in 2018, law enforcement agencies were instructed to include whether there were indications that the incident involved strangulation or suffocation. This includes whether a witness or victim reported such an incident, or symptoms thereof, or whether an officer observed any other indications of strangulation or suffocation.

# LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED (LEOKA)

- LEOKA data from the UCR Program are available from 1990 to 2021.
- State correctional officers and federal agents are not included in LEOKA data.

# **List of Data Tables**

	CRIMES			ARRESTS	
Tab	ple	Page	Tab	le	Page
1	CRIMES, 1966–2021 Number and Rate per 100,000 Population	10	16	TOTAL ARRESTS, 2016–2021 Number and Rate per 100,000 Population at Risk	21

Notes: Rates m	nay not add to t	otals because of	rounding							

Notes: Rates may not add to totals because of rounding.

Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 53). Dash indicates data not available.

<sup>&</sup>lt;sup>a</sup> Prior to 2005, the Los Angeles Police Department had included child abuse and domestic violence simple assaults in its aggravated assault statistics. This change may have contributed to the large decrease in aggravated assaults from 2004 to 2005.

b Includes estimated annual 1995 data provided by the Oakland Police Department.
In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2021 numbers for Rape consist of 11,874 reported under this current definition (SRS) and 2,561 reported under the definition for IBR. For additional information, see Understanding the Data, Characteristics and Known Limitations.

<sup>&</sup>lt;sup>2</sup> Data for arson crimes are not available prior to 1980. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Notes: Values and percentages may not add to subtotals, total, or 100.0 because of rounding.

Property type is determined by the point of origin of a fire.

The increase in the Arson value of property damage in 2020 is due to the damages reported in the Lightning Complex Fire that occurred in Solano County.

<sup>&</sup>lt;sup>2</sup> Other residential - apartments, tenements, hotels, motels, etc. Single occupancy - houses, townhouses, duplexes, etc.

<sup>&</sup>lt;sup>3</sup> Storage - barns, garages, warehouses, etc. <sup>4</sup> Other commercial - stores, restaurants, offices, etc. <sup>5</sup> Community/public - churches, jails, schools, hospitals, etc.

 $<sup>^{\</sup>rm 6}$  Other structural property - outbuildings, buildings under construction, etc.

In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2021 numbers for Rape consist of 11,874 reported under this current definition (SRS) and 2,561 reported under the definition for IBR. For additional information, see Understanding the Data, Characteristics and Known Limitations.

<sup>2</sup> Percentage of clearances to total crimes reported.

Notes: Statewide arrest data from 1952 through 1965 can be found in Table 16 of Crime in California, 2006.

Since 1966 there have been many changes in laws, data collection procedures, etc.; therefore, caution should be used when comparing data for the 1966 through 2021 period. Juvenile misdemeanor arrest data for 1973 through 2021 are not comparable to prior years because of changes in reporting criteria.

a In November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when

comparing felony and misdemeanor arrest data to prior years. For additional information, see Understanding the Data, Characteristics and Known Limitations and Appendix 2, Arrest Offense Codes.

b Includes estimated annual data for the Bakersfield Police Department and the Oakland Police Department. For additional information, see Understanding the Data, Characteristics and Known Limitations.

<sup>1</sup> Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

<sup>&</sup>lt;sup>2</sup> Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 53).

<sup>&</sup>lt;sup>3</sup> Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 53).

Note: Rates calculated from the total population may not add to subtotals or total because of rounding.

Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 53).

Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 53).

In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The definition was expanded to include both male and female victims and reflects the variety and reflects and Known Limitations.

Reper consist of 1,809 reported under this current definition (SRS) and 155 reported under the definition for IBR. For additional information, see Understanding the Data, Characteristics and Known Limitations.

In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for numerous state statutes. Caution should be used when comparing drug offense arrests to prior years.

Rates are based on the population at risk for each year. The categories are total (10-69 years of age), and juvenile (10-17 years of age) (see Table 53).

Note: Percentages may not add to subtotals because of rounding.

California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2021 arrest numbers include 17 transgender (identifying as male) and 49 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. For additional information, see the Understanding the Data, Characteristics and Known Limitations.

<sup>11</sup> transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2021 arrest numbers include 5 transgender (identifying as male) and

size. For additional information, see the Understanding the Data, Characteristics and Known Limitations.

In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2021 numbers for Rape consist of 1,809 reported under this current definition (SRS) and 155 reported under the definition for IBR. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Note: California has expanded the sex (gender) categories it collects in CIBKS to include: male, hand-binary, and itansgender. The 2021 arrest numbers include 5 transgender (dentifying as male) and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. The additional information, see the Understanding the Data, Characteristics and Known Limitations.

In 2014, the orinne of "forcible rape" are changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape.

The 2021 numbers for Rape consist of 1,809 reported under this current definition (SRS) and 155 reported under the definition for IBR. For additional information, see Understanding the Data, Characteristics and Known Limitations.

<sup>&</sup>lt;sup>1</sup> California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2021 arrest numbers include 12 transgender (identifying as male) and 38 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. For additional information, see the Understanding the Data, Characteristics and Known Limitations.

Note: California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2021 arrest numbers include 12 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. For additional information, see the Understanding the Data, Characteristics and Known Limitations.

Source: Data extracted from the California Department of Justice Criminal History System. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Notes: This table presents the number and type of final dispositions and sentences for felony arrests reported to the California Department of Justice by law enforcement agencies, district attorneys, and courts. Caution should be used when interpreting this information because arrests and dispositions are underreported. It should also be noted that approximately 1.1% of the adult felony convictions contained in these data represent a disposition that the California Department of Justice was unable to positively link to a criminal record; accordingly, an arrest event was created based solely upon the disposition information provided. There is no way for the California Department of Justice to estimate the exact percentage of underreported dispositions. The nature, extent, and reasons for this underreporting vary from agency to agency and from year to year.

Percentages may not add to subtotals or 100.0 because of rounding.

a In 2019, there was a decrease in the number of final dispositions and sentences for felony adult arrests reported to the California Department of Justice.

<sup>&</sup>lt;sup>b</sup> In November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. Caution should be used when comparing felony arrest disposition data to prior years.

<sup>&</sup>lt;sup>1</sup> The \*prosecution rejections and resolutions\* category includes single complaints, combined cases, and petitions to revoke probation.

<sup>&</sup>lt;sup>2</sup> The "dismissed, acquitted" category includes diversions that have been dismissed.

Source: Data extracted from the California Department of Justice Criminal History System. For additional information, see Understanding the Data, Characteristics and Known Limitations. Source: Data extracted from the California Department of Justice by law enforcement agencies, distinct attorneys, Notes: This table presents the number and type of final dispositions and sentences for felony arrests reported to the California Department of Justice by law enforcement agencies, distinct attorneys, and courts. Caution should be used when interpreting this information because a rrests and dispositions are underreported. It should also be noted that approximately 1.1% of the adult felony convictions contained in these data represent a disposition that the California Department of Justice was unable to positively link to a criminal record accordingly, an arrest event was created based solely upon the disposition information provided. There is no way for the California Department of Justice to estimate the exact percentage of

underreported dispositions. The nature, extent, and reasons for this underreporting vary from agency to agency and from year to year. Data include convictions for both misdemeanors and felonies. Percentages may not add to subtotals or 100.0 because of rounding.

an 2019, there was a decrease in the number of final dispositions and sentences for felony adult arrests reported to the California Department of Justice.

<sup>1</sup> The "state institutions" category includes sentences to death, prison, California Rehabilitation Center (civil addict), and the Division of Juvenile Justice.

<sup>&</sup>lt;sup>2</sup> The "probation" category includes straight probation, fine, and other (no sentence given, sentence suspended, and sentence stayed).

 $<sup>^{\</sup>rm 3}$  Violent offenses include homicide, rape, robbery, assault, and kidnapping.

Property offenses include burglary; theft; motor vehicle theft; forgery, check, and access card offenses; and arson.

Note: These data include adults placed on supervised probation only. Data are limited to original grants of probation and do not include subsequent grants of probation to persons already under supervised probation in the same county.

<sup>&</sup>lt;sup>a</sup> In 2018, San Joaquin County Probation discovered inaccurate reporting of caseload counts resulting in corrected felony and misdemeanor caseload counts for October.

<sup>&</sup>lt;sup>b</sup> In 2016, Sacramento County Probation discovered inaccurate reporting of caseload counts from 2013-2015 resulting in a corrected beginning felony caseload count for 2016.

<sup>&</sup>lt;sup>c</sup> In November 2014, California voters passed Proposition 47 which reduced numerous state statutes from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor data to prior years.

<sup>&</sup>lt;sup>d</sup> San Bernardino County Probation revised their beginning caseload counts for 2014. The revision resulted in a decrease of almost 9,000 felony cases and an increase of almost 400 misdemeanor cases.

Notes: Rates and percentages may not add to subtotals, total, or 100.0 because of rounding.

These data include adults placed on supervised probation only. Data are limited to original grants of probation and do not include subsequent grants of probation to persons already under supervised probation in the same county.

Rates per 100,000 population at risk for 2015 and 2017 will not match previously published data.

Rates are based on the adult population at risk (18-69 years of age) for each year (see Table 53).

"Other" includes transfer of jurisdiction from one county to another, death, sentence vacated, successful appeal, deportation, etc.

Note: Personnel in the Department of Justice and state regulatory agencies are not included.

<sup>&</sup>lt;sup>1</sup>The passage of Assembly Bill 196 required that county-level child support programs, previously administered by district attorneys, be operated by local child support agencies. This accounts for the large decrease in prosecution personnel since 2001.

Source: Civilians' Complaints Against Peace Officer counts are obtained from an annual survey conducted in January of the following statistical year.

Notes: Data collection began in 1981.

Because of the individual nature of the requirements of Penal Code section 832.5(a), reporting definitions and procedures vary among reporting agencies.

The data collected under Penal Code section 13012(5) are accurate and complete to the extent that the contributing agencies met reporting obligations.

Based on a survey conducted in 2004, it is estimated that complaints from inmates in prisons and jails may constitute approximately one-third of all complaints reported by law enforcement agencies.

The increase in the number of reported non-criminal complaints and the decrease in the number of reported felony complaints result from reporting-policy changes made by two law enforcement agencies.

Source: Civilians' Complaints Against Peace Officer counts are obtained from an annual survey conducted in January of the following statistical year.

Notes: Expanded categories of complaint findings and profiling data collection began in 2016 as a result of the passage of Assembly Bill 953 (2015).

Reporting agencies may use more findings than those captured on the annual survey. Complaints reported in previous years may be finalized and their findings reported in subsequent years. Consequently, the sum of the findings may not add up to the total reported.

More than one type of profiling complaint can be reported per citizen complaint. Consequently, the total number of profiling complaints is less than the sum of the types of complaints.

Because of the individual nature of the requirements of Penal Code section 832.5(a), reporting definitions and procedures vary among reporting agencies. The data collected under Penal Code section 13012(5) are accurate and complete to the extent that the contributing agencies met reporting obligations.

<sup>1</sup> Hands, feet, etc.

<sup>2</sup> Prior to 1989, the "personal weapon" calegory was not recognized by all reporting agencies as a type of weapon. When those agencies began reporting personal weapon calls as cases involving weapons, they did not provide the type of weapon designation. This accounts for the large increase in "not reported" weapons in 1989 and 1990.

<sup>3</sup> Data for cases with strangulation or suffocation are not available prior to 2018. For additional information, See Understanding the Data, Characteristics and Known Limitations.

<sup>&</sup>lt;sup>a</sup> Data may not match previously published data for 2014 and 2016.

b. In April 2002, law enforcement agencies were instructed to report personal weapons only if the assault resulted in an injury (aggravated assault).

The San Francisco Police Department was unable to provide complete data for 1997, and did not report data for 1998 because of computer problems. In 1996, this department reported 6,422 domestic violence-related calls for assistance. <sup>d</sup> The Oakland Police Department was unable to provide 1995 data. In 1994, this department reported 5,237 domestic violence-related calls for assistance.

<sup>e</sup> Data collection began in July 1986; therefore, only six months of data are available and displayed for 1986.

<sup>&</sup>lt;sup>1</sup> An "event" is an occurrence of one or more criminal offenses committed against one or more victims by one or more suspects/perpetrators.

<sup>&</sup>lt;sup>2</sup> A "victim" may be an individual, a reproductive health facility, a religious facility, a residence, etc. A victim can have more than one offense committed against them.

<sup>&</sup>lt;sup>3</sup> Suspect counts only reflect when certain demographics are reported.

<sup>&</sup>lt;sup>4</sup> Hands, feet, etc.

<sup>&</sup>lt;sup>5</sup> The type of weapon only applies to crimes against persons or in cases involving incendiary devices.

## Table 52 VIOLENT CRIMES COMMITTED AGAINST SENIOR CITIZENS, 2000-2021

Notes: This table provides summary statistical data on the total number of persons 60 years of age or older who were victims of homicide, rape, robbery, or aggravated assault.

<sup>&</sup>lt;sup>1</sup> In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2021 numbers for Rape consist of 273 reported under this current definition (SRS) and 56 reported under the definition for IBR. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Source: Population estimates were provided by the Demographic Research Unit, California Department of Finance.

<sup>&</sup>lt;sup>1</sup> Total population at risk: 10-69 years of age.
<sup>2</sup> Adult population at risk: 18-69 years of age.
<sup>3</sup> Juvenile population at risk: 10-17 years of age.

# **Appendix 1 Computational Formulas**

### **CRIMES**

**Crime rate** – A crime rate describes the number of crimes reported to law enforcement agencies for every 100,000 persons within a population. A crime rate is calculated by dividing the number of reported crimes by the total population. The result is then multiplied by 100,000. For example, in 2021 there were 43,628 robberies in California and the population was 39,368,613. This equals a robbery crime rate of 110.8 per 100,000.

$$\frac{43,628}{39,368,613}$$
 = 0.0011081 x 100,000 = 110.8 per 100,000

**Clearance rate** – A clearance rate describes the percentage of clearances reported to the number of crimes reported. A clearance rate is calculated by dividing the number of clearances by the number of crimes reported. The result is multiplied by 100. For example, in 2021 there were 1,286 clearances for homicide crimes and 2,361 homicides reported. This equals a homicide clearance rate of 54.5 percent.

$$\frac{1,286}{2,361}$$
 = 0.54468 x 100 = 54.5 percent

### **ARRESTS**

**Arrest rate** – An arrest rate describes the number of arrests made by law enforcement agencies per 100,000 total population or per 100,000 population considered to be at risk for arrest. Regardless of the population used, both rates are calculated in the same manner. An arrest rate is calculated by dividing the number of reported arrests by the desired population. The result is multiplied by 100,000.

For example: 1) In 2021, there were 266,844 total felony arrests and the total population was 39,368,613, which equates to a 677.8 arrest rate; 2) In 2021, there were 266,844 total felony arrests and the population at risk (10-69 years of age) was 30,418,892, which equates to a 877.2 arrest rate.

1) 
$$\frac{266,844}{39,368,613}$$
 = 0.0067781 x 100,000 = 677.8 per 100,000 population

2) 
$$\frac{266,844}{30,418,892}$$
 = 0.0087723 x 100,000 = 877.2 per 100,000 population at risk

### **ADDITIONAL INFORMATION**

**Percent change** – A percent change describes the change in number or rate from one year to another. A percent change is calculated by subtracting the base-year data from the current-year data. The result is divided by the base-year data and multiplied by 100. For example, in 2021 the robbery crime rate was 110.8. In 2016, the robbery crime rate was 139.2. The percent change in rate from 2016 to 2021 is a 20.4 percent decrease.

$$\frac{110.8 - 139.2}{139.2}$$
 = -0.20402 x 100 = -20.4 percent

**Populations at risk** – The Arrest tables in this report (16, 17, 22, and 27) include three comparison populations: total (10–69 years of age), adult (18–69 years of age), and juvenile (10–17 years of age). The term Population at Risk refers to that portion of the total population who, because of like characteristics to the specific study group, are considered "at risk". For example, juveniles, all persons ages 10-17 would constitute the at risk population. Both populations, 10-17 years of age and 18-69 years of age are grouped together as the population at risk for the purpose of this publication for arrest incident occurrences.

When a series of rates is calculated using different populations, the rate calculated for the total will not equal the sum of the rates for the parts. For example, the arrest rate calculated using the total at risk population will not equal the sum of the juvenile arrest rate (based on the juvenile at risk population) and the adult arrest rate (based on the adult at risk population).

Also, the percent changes calculated for these at risk rates cannot be added. This is because the percent change in the total arrest rate is the result of independent changes in both the number of arrests and the at risk populations of adults and juveniles.

# Appendix 2 Arrest Offense Codes

The following statutes and their offense groupings were valid at the time of the closeout of the 2021 arrest offense code file. All statutory codes listed are for Penal Code sections unless indicated as follows:

BP - Business and Professions Code

CC - Corporations Code

CI - Civil Code

EC - Education Code FA - Food and Agriculture Code

FC - Financial Code

FG - Fish and Game Code

GC - Government Code HN - Harbors and Navigation Code

HS - Health and Safety Code IC - Insurance Code

LC - Labor Code

MV - Military and Veterans Code

PR - Public Resources Code

RT - Revenue and Taxation Code

SH - Streets and Highways Code UI - Unemployment Insurance Code

VC - Vehicle Code

WI - Welfare and Institutions Code

### **All Other Misdemeanor Offenses**

Notes: These codes are valid for 2021 data and may not be applicable for prior years.

"All Other Felony Offenses" also includes sections in the Election Code and Water Code.

"All Other Misdemeanor Offenses" also includes sections in the California Code of Regulations, City or County Ordinances, Civil Procedure Code, Election Code, Public Utilities Code, Uniform Fire Code, and Water Code.

Arrests for attempted offenses are reported in their respective categories with the exception of homicide and manslaughter, which are captured in the felony assault category.

<sup>\*</sup>These code sections can be either a felony or a misdemeanor.

### **Acknowledgments**

The California Department of Justice is mandated by statute to submit an annual *Crime in California* report to the Legislature. The department extends its appreciation to all the law enforcement agencies that provided complete and timely data. This report would not have been possible without their cooperation.
